**Shared Spectrum Company Receives SPIFFY Ground Breaker Award for Engineering Excellence at Annual Telecom Council of Silicon Valley TC3 Service Provider Forum**

(Vienna, VA) – October 20, 2014 – [Shared Spectrum Company](#) (SSC), a leading innovator of spectrum intelligence software and solutions, received the “Ground Breaker Award for Engineering Excellence SPIFFY Award” by the [Telecom Council of Silicon Valley](#) at their annual [TC3 Executive Summit](#). Winners are selected for innovative ideas, relevance and traction most appealing to carriers from around the globe.

“I want to applaud Shared Spectrum Company for ground breaking work in wireless spectrum sharing and spectrum intelligence technology” said Liz Kerton, Telecom Council President. “SSC is helping to fuel the growth in the wireless industry”.

“This award is a significant honor for SCC given the focus on wireless innovation, market opportunity and potential interest among the Telecom Council’s [service provider members](#),” said Andy Beegan, SSC’s CEO. “We greatly appreciate the recognition for our spectrum intelligence and spectrum sharing technologies, which resolve a host of spectrum management issues and challenges facing services providers.”

###

**About Shared Spectrum Company**

Founded in 2000, SSC is a leading developer of spectrum intelligence technologies. Based in Vienna, Va., the company has developed innovative wireless spectrum sharing technology and spectrum intelligence applications in a broad range of the frequency bands.
